JEFFRIES THE WINNER

Sharkey in Twenty Rounds at Sa tingside Through the Collapse of seats. SAN FRANCISCO, May 6 .- Thomas J. Sharkey, the sailor pugilist, and James J. Jeffries, admittedly the leading heavy eight pugilists actually in fighting harness to-day, met before the National Athletic Club to-night, to settle the muestion of supremacy. The outcome of Carlona . this contest has been the absorbing opic of discussion in sporting circles ince the consummation of the match. Mechanics' Pavilion, which has been he scene of many memorable pugilistic pters, presented a lively appearance ortly before the principals appeared ring. At this juncture an acci

CAMP LEE, Charleston, W. Va., May 6.-The heavy rains for the past day have made a perfect lake of the large plain on which the soldier boys are camped and in many places the water is fully two feet deep. Col. Spillman ordered the digging of trenches, and a large drain was opened by noon. One of the officers wrote a friend that they are contemplating the building of an ark and will transport the troops by water to New Orleans. It was an egre-gious error to locate the encampment at Kanawha when plenty of well drained ground could have been found near this

city.
The regimental surgeons have been busy the entire day subjecting the vol-unteers to a rigid examination, and Company M, from Moundsville, was the Company M, from Moundsville, was the first to pass muster. Out of ninety examined eighty-two passed, which is considered a good average. Company G is now being examined, but from present indications it will not fare so well as the company-from Moundsville. It will take several days to complete the work of mustering in the soldiers, and from what can be learned now, the troops will be held here until sent out for active service.

Some people in the world persist in clinging to old methods. There are men who still use a forked stick in place of a modern plow. There are also men, who, when they are troubled with a disordered stomach or liver, resort to the old-fashioned violent remedies that rack and rend the whole body, and while they give temporary relief, in the long run do the entire system a great amount of harm.

Modern science has discovered remedies infinitely superior to these old-fashioned drugs, that do their work by promoting the natural processes of excretion and scretion and gently correcting all circulatory disturbances. When a man feels generally out of sorts, when he losses sleep at night, when his gets up headachey and with a bad taste in his mouth in the morning, when he feels dull and lethargie all day, when his appetite is poor and his food distresses him, when work comes hard and recreation is an impossibility, that man, though he may not believe it, is a pretty sick man, He is on the road to consumption, nervous prostration, malaria, or some serious blood disease. In cases of this description a man should resort at once to Dr. Pierce's Golden Medical Discovery. It is the best medicine for a weak stomach, impaired digestion and disordered liver. It is the great blood-maker and purifier, flesh-builder and nerve tonic. It cures of per cent of all cases of consumption, bronchitis, lingering coughs and kindred ailments. Thousands have testified to its marvelous merits. It is a modern, scientific medicines that aids without goading nature, and that has stood the test for thirty years. Medicine dealers sell it.

Dr. Pierce's Pellets cure constipation.

What does A stand for? When some friend suggests that your blood needs A sarsaparilla treatment, remember that A stands for AYER'S. The first letter in the alphabet stands for the first of sarsaparillas; first in origin, first in record, first in the favor of the family. For nearly half a century

Sarsaparilla

has been curing all forms of blood diseases-scrofula, oczema, tetter, rheumatism, erysipelas, blood poisoning, etc. There's a book about these cures - "Ayer's Curebook, a story of cures told by the cured," -which is sent free on request, by Dr. J. C. Ayer, Lowell, Mass. The book will interest you if you are sick or weak, because it tells not what it is claimed the remedy will do, but what your neighbors and fellows testify that it has done. Will it cure you? It has cured thousands like you. Why not you?

suggested by the governor and decided upon to designate it as the "First West Virginia Volunteer Infantry," and it will be known as such hereafter.

There has, been much emulation on the part of the friends of several min-isters to place their favorite in the First regiment as chaplair, and among those who were favorable most long who were favorably mentioned were: Rev. Douglass Roller, of Charleston; Rev. B. M. Spurr, of Moundsville; Rev. S. K. Arbuthnot, of Huntington, and several others. Col. Spillman and a few officers made a hard fight for an Episcopal chaplain, while the governor true to his faith and desiring to sut serve the wishes of the large majority of the regiment, held out for a Meth-odist. The matter was settled to-day by the selection of Rev. S. K. Arbuthby the selection of Rev. S. K. Arbuth-not, of the First Methodist Episcopal church of Huntington. Some claim that he cannot be mustered in until the entire regiment is formed, and then the officers have the right to select. But Governor Atkinson undoubtedly recog-nizes his own authority and will exer-cise it.

der the instructions of Adjutant Gen-eatl Appleton transporting rifles, knapsacks, canteens, etc., to the camp from Charleston. These articles belong to the government but are loaned to the state to equip the troops at camp. Two cannon and cassions were loaded for Berkeley Springs to-day for use in the Berkeley Springs to-day for use in the new battery at that place.

Lieut. Settle reported late to-night that Company G, of Charleston, had been mustered in and is composed of seventy men, twenty being rejected.

Resignation taked for. WASHINGTON, May 6.—Secretary

WHAT IS YOUR TRADE!

Each Trade or Occupation Has Its Specia Disease. It is well known among medical men

that certain diseases are more readily developed in certain occupations than in others. That each occupation has its attendant physical weakness. Engineers, raliroad men and similar occupations suffer mostly from kidney trou bles, and men who are often exposed to the weather suffer from rheumatism while clerks, professional men, in facthe army of people whose busines keeps them indoors, are oftentime keeps them indoors, are oftentimes great sufferers from pilés and constipation. In this connection the following letter is of interest to people whose occupation will not allow sufficient outdoor exercise.

Mr. A. F. Calhoun, notary public and jeweler and watchmaker at Circleville, W. Va., writes as follows:

I had been a severe sufferer from piles for years, and had tried many remedies, with but little benefit, when about three years ago I saw the Pyramid Pile Cure advertised and sent for it.

My tongue was always coated, and my bowels never moved unless I took gome powerful purgative. I felt wretched and was in a terrible state. I concluded to try Munyon's treatment I have been completely cured."

T. H. Collier, with Anderson & Co., 708 Main Street, Richmond, Va., says: "Munyon's Cold Cure I know to be good from personal experience, I took it when suffering from an obstinate cold in the head, and found that the little pellets hroke up the disease in a few hours."

Mr. Charles Kirscht, Rising Sun, Cecil County, Md., says: "My son was cured by your remedies of dyspepsia and catarrh of the stomach after we had been unable to secure relief for him in other directions."

All Sorts of Local News and Gossip From There has not been a period for years

when the business of the railroads from and to this city was as large as during the past month. In fact the business of both the Pennsylvania and Baltimore & Ohio railroads was larger than in any preceding month, and this is probably true of the Cleveland, Lorain & Wheelins, though the latter road at one time did a great business in hauling ore and coke and may have reached the same high point. These roads are excellent business barometers. It is only when the business of this city is great that the local offices of these roads show a great trade, and there can be no mistake about what they indicate.

James Kinney, the water well driller, has found two wells on the mountains has found two wells on the mountains near Lebanon, Pa., that yield a greater water supply than he calculated upon and the people there, as well as the contractor, are in excellent spirits over the prospects of a purer water supply for private use. This is an idea Mr. Kinney is developing, and if it proves successful, as seems probable, Ohio river towns will complain less in the summer season about the fifth we drink.

The damp, disagreeable weather of the past few days has cooled the ardor of some of the boys who thought they wanted to volunteer at the first call for troops.
